Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

3. Terminal disclaimer with disclaimer fee

 Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required. A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ _____ for a small entity or \$ _____ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).

4. STATEMENT: The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional. [NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (III)(C) and (D)).]

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Renewed Petition Under 37 CFR 1.137(a)

This is in response to the letter dated September 9, 2007.

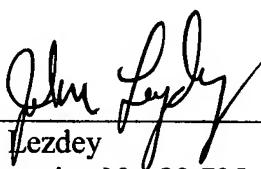

Applicant hereby requests revival of the application under 37 CFR 1.137(b) in order to have the benefit of the earlier application for application Serial No. 11/711,272.

A petition was previously filed under 37 CFR 1.137(a) but as noted from the attached it was previously requested to also consider 37 CFR 1.137(b).

The request for unintentional abandonment was not delayed and was timely filed since it was requested in the alternative when the request for consideration under 37 CFR 1.137(a) was denied even though applicant considers that the abandonment was unavoidable due to the physical incapacity.

Favorable action is earnestly solicited.

Respectfully submitted,

John Lezdey

Renewed Petition under 37CFR1.137(a)

Reconsideration is respectfully requested of the dismissal of the Petition to Revive under 37CFR1.137(a).

Application which were filed between September 7, 2004 and November 29, 2004 were prepared for filing early in July 2004. The delay in filing was due to the four hurricanes which hit Florida in July and August 2004 whereby electricity and mail service was disrupted. It was decided to wait until after the hurricanes to file.

Petitioner suffered spinal injuries on august 7, 2004 and was in the hospital in Cape Cod until September 25, 2004 with no ability to do any patent work. The applications which were filed between December 7, 2004 and February 24, 2005 consisted of applications previously prepared which required a minimal amount of review in order to file.

Petitioner returned to the office on December 3, 2004 on a part-time basis in order to prevent further abandonments which occurred while away from the office.

Petitioner at the time was a witness in a lawsuit in the District Court in Miami, Florida and was required to appear for depositions which lasted one week and resulted in Petitioner requiring to be confined to bed for one week after the depositions.

The patent applications filed in December 2004 were previously prepared for filing and required only a review and a check.

The Notice of Abandonment which was mailed February 14, 2005 reminded the Petitioner to act promptly, however, Petitioner was also required to act promptly to avoid abandonment of applications of clients since there was inadvertent abandonment of other applications which occurred . The Patent and Trademark Office is requested to take notice that Petitioner's injury caused pain and still requires pain killers.

The Petitioner has acted as promptly as he could considering that the injury which occurred on August 7, 2004 caused partial paralysis of Petitioner's legs and required months of physical therapy before Petitioner could walk.

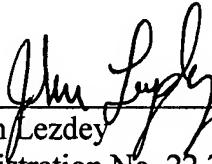

Also, during the period from December 3, 2004 to about January 21, 2005 Petitioner required assistance to be mobile and was not capable of working every day or for any long periods of time.

Petitioner still wears a body brace but can now work a full schedule on patent practice.

Petitioner urges reconsideration of the abandonment under 37CFR1.137(a) or in the alternative under 37CFR1.137(b).

If there are any additional fees, kindly charge account No. 12-1217.

Respectfully submitted,

John Lezdey
